Type of Control (circle one): No Control Every Other Day Control Every Day Control

***Cedar-Knox Public Power District reserves the right to terminate electric service if a customers's load or connected equipment causes interference to the district's distribution system or to other consumers. See Policy 10-710 for guidelines on acceptable electric motor sizes and related equipment.

*** The Connection and Line Extension Fees shall be paid prior to the installation of the electric service (CKPPD Policy 500 - Service and Line Extension).

*** National Electric Code (Section 230- Clearances) requires minimum clearances on any structures (e.g. buildings, grain bins, irrigation pivots, irrigation wells, etc) that are near or under electric power lines. CKPPD will refer to Section 230 to determine the proper clearances required and inform the customer of such requirements. The applicant shall be responsible for the required clearance to property or structures that are near electric power lines and cables.

*** Information that is incorrect on this application, may result in incorrect billings, and be subject to billing adjustments (connection fee, construction credit, etc) and additional fees.

*** All services shall be accessible by CKPPD to maintain reliability and safety of our equipment.

*****Signing this application does not guarantee a specific time frame for completion of a new service. New services are generally prioritized behind the normal system work plan and completion time will also depend on system capacity, time of year, workload, and weather.**
